- There will be a 3 month probationary period.

Rainbow Wings International is a private school which provides nursery, preschool, and after-school for children aged between 0 and 8. The school was created to reduce the amount of children who are waiting to enter other nurseries. Our company mission is to nurture the children who can contribute to the world. For nursery, we nurture children in a comfortable and safe environment while children's parents are working. We also provide a comfortable English-speaking environment in preschool, where children can learn English in an enjoyable atmosphere with Grape SEED materials.

To expand RWI, we have started the construction of a new Preschool building from the next fiscal year. We are also preparing to establish a social welfare corporation in order to contribute more to the Japanese society as an authorized children school.

- ✧ Our English teachers are assisted by our Japanese nursery/kindergarten teachers.
- ✧ Teachers receive comprehensive initial training with full pay along with additional training when needed.

[The followings are some examples of our daily work]

- Give children interesting and fun experiences.
- Create weekly plans and conduct classes.
- Maintaining a safe environment for students.
- Working with other teachers for a balanced study.
